

# Board Technology Coaching

With how much scrutiny is your board overseeing technology?

Technology assets easily account for more than 50% of capital spending. Costly investments require close oversight by the board. With only a limited understanding of the topic, many boards get nervous about their dependence on technology.

Many organizations are creating board-level Technology Committees that are on a par with their audit, compensation, and governance committees.

“ Susanne does ask the right questions and thus leads the discussion. She is an excellent coach, who cares for the people she works with and helps them to succeed. ”

## Tech Strategy on your board's agenda?

How dependent is your board on the expertise of your technology department? The alignment of Technology Strategy with your corporate goals is crucial today. Your board members should be able to assess internal capabilities with confidence and evaluate sourcing options comprehensively.

## Corporate Governance meets Technology!

Our Board Technology Coaching offers a unique blend of technology and governance to Directors (executive and non-executive). We will address the real life topics your board is dealing with. We speak business and understand technology.

## Who oversees technology?

Your Board. But is your board really well equipped to do so? If the board's understanding of technology is patchy or not evenly spread among your board members, you will benefit from our coaching.

Board Technology Coaching is offered to individual board members or groups of up to four. The coaching sessions will be synchronized with your board meeting schedule. A one-day kick-off meeting will ensure our coaches understand your current business and technology challenges. We will work on the real life topics your board has on the agenda.

## With Technology Coaching your board will:

- Assess the risks and benefits of technology investments much faster.
- Provide direction on technology driven change by asking the right questions.
- Be able to incorporate latest trends in technology when discussing your companies real life challenges in the board room.
- Cut through the complexity of technology decisions with confidence.

Make your board tech savvy. Give us a call!
